Epstein - Legend of the Mole

Basic Argument:

Popov - (1959) uncovered by Soviet's how? By U.S. mole / Nosenko argued by Soviet Surveillance.

Burden of "Stone's testimony" Stone is code for Anatoli Golitsin. He pass the game of KGB man Kovshuk, who came to U.S. to activate the Soviet "mole" in 1967.

(His credibility ("his record in Hoover Testimony?)

1978 - Agent "X" uncovered by Soviet CI.
1962 Oleg Penkovsky unearthed in Moscow as CIA Source.

Epstein's thesis - Oswald was a KGB spy - groomed in Japan to steal secrets over the U-2. Defected to Russia. Then sent back to the U.S. for other purposes. Epstein not sure Oswald was directed to kill JFK - but when he did, Moscow sent Nosenko to U.S. to provide cover for Oswald legend. His story corroborated by "Fedora"

Colby - His cooperation with Congressional Committee - See Wise for this.

Nosenko "his" Counter // CI (Angleton-Helms) believed that Nosenko was sent to deflect attention from Oswald and direct attention away from Soviet "role" inside CIA

Note Epstein on Oswald's Travel to Helsinki – his Credibility as Source.

Conspiracy – Chapter. Oswald's New Orleans career sounds like a classic intelligence cover & CIA legend)

FBI – Nosenko. Nosenko's Testimony about Oswald as a "Sleeper Agent" – Still was passed onto the W.C.

FBI on March 4, 1964, got Nosenko to agree to Testify before the W.C.

April, 1964, CIA took Nosenko underground.

CIA documents in Lesson with W.C. were from Phone – not intelligence. Helms – Angleton / Peter Bagley in their Testimony.

Epstein

Nosenko's "lies" — Best When over the course of his interrogation > Some purpose of his interrogation

Epstein argues that Nosenko knew suspension of Angleton in early in 1962

(1) with his Popov Story / See Bruce's account of
(2) Hedley Story / Nosenko's information to CIA.

He does not not just pop up again in 1964 after JFK assassination

Nosenko told 3 lies

(1) Do recall Telegram to return to Moscow, not on day he stated

(2) He was not a Lt Colonel, only a Captain

(3) According to Stone, Nosenko could not have been in touch of KGB he claimed he was or two of defection.

Why the CIA found itself in dilemma over Nosenko by 1967 —

Does Epstein ever mention that Nosenko reported to FBI that Russians suspected that Oswald was a "Sleeper Agent"

Epstein discloses that Angleton's CI experts intercepted a Evidently anti-American letter Oswald wrote his brother in 1959 after going to Russia in Moscow

On August 10 1976, CIA Director Bush, appeared a House Subcommittee that he only corresponded intercept was a July 8, 1967 letter to Marina
